

Learning and Development Audit

What is a Learning and Development Audit about?

What is delivered:

- Learning strategy assessment.
- Learning needs analysis.
- Policies, practices, systems, documents and memoranda review.
- All training activities health check.
- Examining delivery and evaluation.
- Accessibility of training review.
- Impact of investment in improving learning and development optimisation.
- Toolkit of solutions tailored in accordance with company's needs.
- Step-by-step structured plan of implementation & bespoke consultation.

Why we do this?

"So that your company can successfully:

- *Specify and share best practice.*
- *Identify gaps and opportunities.*
- *Optimise internal processes.*

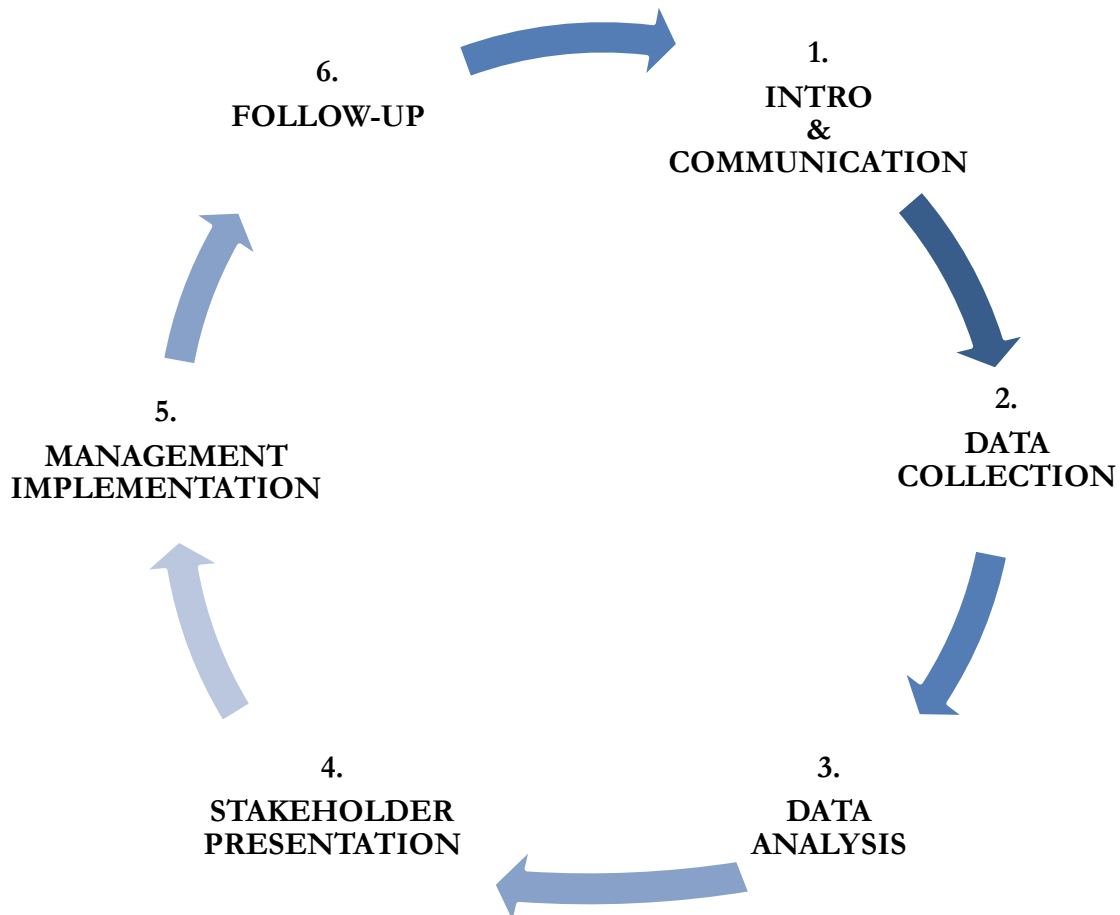

...and we are here to help you with this."

"We believe that people are the fuel of a company.

Therefore, knowing how to achieve the most positive impact of all L&D activities is essential to maximise your company's success."

How the audit is delivered:

Is it for you?

Yes, it is if...

- ...your business is growing dynamically and there is a need for internal process establishment.*
- ...you think there are spots where your process could be changed and restored.*
- ...you have fast-scaling working teams and departments.*
- ...you want to be sure that you really do what you think you are doing.*
